# **Independent Auditor's Report**

To the Shareholders of Genius Metal Inc.

Raymond Chabot Grant Thornton LLP Suite 2000 National Bank Tower 600 De La Gauchetière Street West Montréal, Quebec H3B 4L8

T 514-878-2691

# Opinion

We have audited the financial statements of Genius Metals Inc. (hereafter "the Company"), which comprise the statement of financial position as at July 31, 2019 and 2018, and the statement of loss and comprehensive loss, the statement of changes in equity and the statement of cash flows for the years then ended, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at July 31, 2019 and 2018, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

# **Basis for opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Material uncertainty related to going concern

We draw attention to Note 2 to the financial statements, which indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Member of Grant Thornton International Ltd rcgt.com

# Information other than the financial statements and the auditor's report thereon

Management is responsible for the other information. The other information comprises the information other than the financial statements and auditor's report thereon included in Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

# Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Louis Berardi.

# **Notes to Financial Statements**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 1. Reporting entity and nature of operations:

Genius Metals Inc. (hereafter the "Company" or "Genius Metals" or "GENI") is engaged in the acquisition and exploration of mineral properties.

Genius Metals is a company domiciled in Canada. Genius Metals was incorporated on May 25, 2018 under the *Canada Business Corporations Act.* Genius Metals is a public company listed since October 31, 2018 on the Canadian Securities Exchange ("CSE") and its trading symbol is "GENI".

The Company's head office, which is also the main establishment is located at 22 Lafleur Avenue North, suite 203, Saint-Sauveur, Québec, Canada J0R 1R0 and its web site is www.geniusmetals.com.

# 2. Going concern:

The accompanying financial statements have been prepared on the basis of the on going concern assumption meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period.

Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt on the Company's ability to continue as a going concern and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

For the year ended July 31, 2019, the Company recorded a net loss of \$2,043,179 and has an accumulated deficit of \$2,043,179 as at July 31, 2019. Besides the usual needs for working capital, the Company must obtain funds to enable it to meet the timelines of its exploration programs and to pay its overhead and administrative costs. As at July 31, 2019, the Company had a negative working capital of \$475,743 (a working capital of \$10 as at July 31, 2018) consisting of cash and cash equivalents of \$127,109 (\$0 in cash and cash equivalents as at July 31, 2018). Management believes that these funds will not be sufficient to meet the obligations and liabilities of the Company. These uncertainties cast significant doubt regarding the Company's ability to continue as a going concern. Any funding shortfall may be met in the future in a number of ways, including but not limited to, the issuance of new equity instruments. Given that the Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, the Company has not yet generated income nor cash flows from its operations. The recovery of the cost of exploration and evaluation assets as well as other tangible and intangible assets, is subject to certain conditions: the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to continue the exploration, evaluation, development, construction and ultimately disposal of these assets. During the year ended July 31, 2019, the Company has raised \$1,195,642 from private placements consisting of common shares and flow-through shares to fund exploration works and working capital. There is no assurance that it will succeed in obtaining additional financing in the future.

# 3. Basis of preparation:

# 3.1 Statement of compliance:

These annual financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") applicable to the preparation of annual financial statements. The accounting policies applied in these consolidated financial statements are based on IFRS issued and in effect as at year end.

# 3.2 Basis of measurement:

The financial statements have been prepared on the historical cost basis except for where IFRS requires recognition at fair value.

# 3.3 Functional and presentation currency:

These financial statements are presented in Canadian dollars, which is the Company's functional currency.

# 3.4 Use of estimates and judgements:

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

# Notes to Financial Statements (continued)

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 3. Basis of preparation (continued):

# 3.4 Use of estimates and judgements (continued):

# (a) Significant management judgment:

The following are significant management judgments in applying the accounting policies of the Company that have the most significant effects on the financial statements.

#### Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meets its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances. See Note 2 for more information.

Recognition of deferred income tax assets and measurement of income tax expense

Management continually evaluates the likelihood that its deferred tax assets could be realized. This requires management to assess whether it is probable that sufficient taxable income will exist in the future to utilize these losses within the carry-forward period. By its nature, this assessment requires significant judgment. To date, management has not recognized any deferred tax assets in excess of existing taxable temporary differences expected to reverse within the carry-forward period (see Note 4.13).

# (b) Estimation uncertainty:

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities and expenses is provided below. Actual results may be substantially different.

Impairment of exploration and evaluation assets

Determining if there are any facts or circumstances indicating an impairment loss or reversal of impairment losses is a subjective process involving judgment and a number of estimates and interpretations in many cases (see Note 4.9).

When an indication of impairment loss or a reversal of an impairment loss exists, the recoverable amount of the individual asset or the cash-generating units must be estimated.

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular, whether a technically or economically viable extraction operation can be established, the probability that the expense will be recovered from either future exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of existence of reverses, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written-down in profit or loss in the period when the new information become available.

#### Share-based compensation

The estimation of share-based compensation costs requires the selection of an appropriate valuation model and data and consideration as to the volatility of the Company's own share, the probable life of share options and warrants granted and the time of exercise of those share options and warrants. The model used by the Company is the Black-Scholes valuation model (see Note 13).

Fair value of the company's stock before it goes public

The assessment of the fair value of the Company's shares prior to its stock market listing involves some degree of estimation and judgment. The Company has estimated the fair value of the share using a simultaneous private placement on October 5, 2018 (Note 12). This was determined using the Black-Scholes valuation model (see Note 12).

# Provisions and contingent liabilities

Judgments are made as to whether a past event has led to a liability that should be recognized in the financial statements or disclosed as a contingent liability. Quantifying any such liability often involves judgments and estimations. These judgments are based on a number of factors including the nature of the claims or dispute, the legal process and potential amount payable, legal advice received, previous experience and the probability of a loss being realized. Several of these factors are source of estimation uncertainty.

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 3. Basis of preparation (continued):

# 3.4 Use of estimates and judgements (continued):

# (b) Estimation uncertainty (continued):

Tax credits receivable

Tax calculation of the Company's refundable tax credit on qualified exploration expenditure incurred and refundable tax credit involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until a notice of assessment has been issued by the relevant taxation authority and payment has been received. Difference arising between the actual results following final resolution of some of these items and the assumptions made could necessitate adjustments to the refundable tax credit, exploration and evaluation assets, and income tax expense in future periods (see Note 4.6).

# 4. Significant accounting policies:

The financial statements have been prepared using accounting policies set out by IFRS effective at the end of the period for submission of financial information. The significant accounting policies used in preparing these financial statements are summarized below.

#### 4.1 Financial instruments:

# (a) Recognition and derecognition:

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognized when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expired.

# (b) Classification and initial measurement of financial assets:

All financial assets are initially measured at fair value adjusted for transaction costs (where applicable). Financial assets are classified into the following categories:

- · amortized cost;
- fair value through profit or loss ("FVTPL");
- fair value through other comprehensive income ("FVOCI").

In the periods presented, the Company does not have any financial assets categorized as fair value through profit or loss or through other comprehensive income.

The classification is determined by both:

- the entity's business model for managing the financial asset;
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognized in profit or loss are presented within finance expense.

# (c) Subsequent measurement of financial assets:

Financial assets are measured at amortized cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows;
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortized cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Company's cash and cash equivalent and other receivables (except sales tax receivable) fall into this category of financial instruments.

# Notes to Financial Statements (continued)

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 4. Significant accounting policies (continued):

# 4.2 Impairment of financial assets:

IFRS 9's impairment requirements use more forward-looking information to recognize expected credit losses – the 'expected credit loss (ECL) model'. This replaces IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included other receivables (except sales tax receivable).

Recognition of credit losses is no longer dependent on the Company first identifying a credit loss event. Instead the Company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

#### 4.3 Classification and measurement of financial liabilities:

The Company's financial liabilities include trade accounts payable and other liabilities.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortized cost using the effective interest method except.

#### 4.4 Basic and diluted loss per share:

Basic loss per share is calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share is calculated by adjusting loss attributable to common shareholders of the Company, and the weighted average number of common shares outstanding, for the effects of all dilutive potential common shares which include options and warrants. Dilutive potential common shares are deemed to have been converted into common shares at the average market price at the beginning of the period or, if later, at the date of issue of the potential common shares. The diluted loss per share is equal to the basic loss per share as a result of the anti-dilutive effect of the outstanding warrants and share options. Details of share options and warrants issued that could potentially dilute earnings per share in the future are given in note 12.

# 4.5 Cash and cash equivalents:

Cash and cash equivalent consist of cash, cash in trust and guaranteed investment certificate, easily convertible in a known amount of cash and subject to negligible risk of value impairment.

# 4.6 Tax Credit Relating to Resources and Mining Tax Credit:

The Company is entitled to refundable tax credits on eligible exploration expenses incurred and to refundable mining rights tax credits as duties under the law on the mining tax. These tax credits are recorded based on management's estimates and provided that the Company is reasonably certain that they will be collected. Tax credits are recorded as a reduction of the deferred exploration and evaluation expenses.

# 4.7 Property and equipment:

Property and equipment are held at cost less accumulated depreciation and accumulated impairment losses.

Cost includes all costs incurred initially to acquire or construct an item of property and equipment, costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and costs incurred subsequently to add to or replace part thereof.

Recognition of costs in the carrying amount of an item of property and equipment ceases when the asset is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is recognized on a straight-line basis to write down the cost to its estimated residual value, with a constant charge over the useful life of the asset. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

The estimated useful lives are as follows:

Asset	Period
Rolling stock	5 years

# Notes to Financial Statements (continued)

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 4. Significant accounting policies (continued):

# 4.7 Property and equipment (continued):

The residual value, depreciation method and useful life of each asset are reviewed at least at each financial year-end.

The carrying amount of an item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property and equipment is included in profit or loss when the item is derecognized.

# 4.8 Mining Properties Options Agreements:

Options on interests in mining properties acquired by the Company are recorded at the value of the consideration paid, including other future benefit given up but excluding the commitment for future expenditures. Commitment for future expenditures does not meet the definition of a liability and thus are not accounted for immediately. Expenditures are accounted for only when incurred by the Company.

When the Company sells interest in a mining property, it uses the carrying amount of the interest before the sale of the option as the carrying amount for the portion of the property retained, and credits any cash consideration received against the carrying of this portion (any excess is recognized as a gain in profit or loss).

#### 4.9 Grants:

Grants are recognized as a reduction of the related expenses or assets. The Company records these grants when there is reasonable assurance with regards to collections and assessments and that the Company will comply with the conditions associated to them.

#### 4.10 Mining properties and exploration and evaluation assets:

Exploration and evaluation expenditures are costs incurred in the course of the initial search of mineral resources before the technical feasibility and commercial viability of extracting a mineral resources are demonstrable. Costs incurred before the legal right to undertake exploration and evaluation activities are recognized in profit or loss when they are incurred.

Once the legal right to undertake exploration and evaluation activities has been obtained, all costs of acquiring mineral rights, expenses related to the exploration and evaluation of mining properties, less refundable tax credits related to these expenses, are recognized as exploration and evaluation assets.

Expenses related to exploration and evaluation include topographical, geological, geochemical and geophysical studies, exploration drilling, trenching, sampling, general expenses, financial charges, management fees and other costs related to the evaluation of the technical feasibility and commercial viability of extracting a mineral resource.

The various costs are capitalized on a property-by-property basis pending determination of the technical feasibility and commercial viability of extracting a mineral resource. These assets are recognized as intangible assets and are carried at cost less any accumulated impairment losses. No depreciation expenses are recognized for these assets during the exploration and evaluation phase.

Whenever a mining property is considered no longer viable, or is abandoned, the capitalized amounts are written down to their recoverable amounts, the difference is then immediately recognized in profit or loss.

When technical feasibility and commercial viability of extracting a mineral resource are demonstrable, exploration and evaluation assets related to the mining property are transferred to property and equipment in Mining assets under construction. Before the reclassification, exploration and evaluation assets are tested for impairment and any impairment loss is recognized in profit or loss before reclassification.

To date, neither the technical feasibility nor the commercial viability of extracting a mineral resource has been demonstrated.

Although the Company has taken steps to verify title to the mining properties in which it holds an interest, in accordance with industry practices for the current stage of exploration of such properties, these procedures do not guarantee the validity of the Company's titles. Property titles may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 4. Significant accounting policies (continued):

# 4.11 Impairment of mining properties, exploration and evaluation assets and property and equipment:

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at a cash-generating unit level.

Whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, an asset or cash-generating unit is reviewed for impairment.

Impairment reviews for exploration and evaluation assets are carried out on a project-by-project basis, with each project representing a potential single cash-generating unit. An impairment review is undertaken when indicators of impairment arise, but typically when one of the following circumstances apply:

- the right to explore the areas has expired or will expire in the near future with no expectation of renewal;
- no further exploration or evaluation expenditures in the area are planned or budgeted;
- no commercially viable deposits have been discovered, and the decision has been made to discontinue exploration in the area;
- sufficient work has been performed to indicate that the carrying amount of the expenditure carried as an asset will not be fully recovered.

Additionally, when technical feasibility and commercial viability of extracting a mineral resource are demonstrable, the exploration and evaluation assets of the related mining property are tested for impairment before these items are transferred to property and equipment.

An impairment loss is recognized in profit or loss for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less cost to sell and its value in use.

An impairment charge is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

# 4.12 Provisions, contingent liabilities and contingent assets:

Provisions are recognized when present legal or constructive obligations as a result of a past event will probably lead to an outflow of economic resources from the Company and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes, decommissioning, restoration and similar liabilities, or onerous contracts.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted when the time value of money is significant.

The Company's operations are governed by government environment protection legislation. Environmental consequences are difficult to identify in terms of amounts, timetable and impact. As of the reporting date, management believes that the Company's operations are in compliance with current laws and regulations. Site restoration costs currently incurred are negligible, given that the Company's operations are still in the exploration and evaluation stage. When the technical feasibility and commercial viability of extracting a mineral resource have been demonstrated, a restoration provision will be recognized in the cost of the mining property when there is constructive commitment that has resulted from past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be measured with sufficient reliability.

In those cases where the possible outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized, unless it was assumed in the course of a business combination.

As at July 31, 2019, the Company had no contingent liabilities and therefore no provision was recorded in the annual financial statements.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

# Notes to Financial Statements (continued)

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 4. Significant accounting policies (continued):

#### 4.13 Income taxes:

When applicable, tax expense recognized in profit or loss comprises the sum of deferred tax and current tax not recognized directly in equity.

However, since the Company is in the exploration phase and has no taxable income, tax expense recognized in profit or loss is currently comprise only of deferred tax.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases. However, deferred tax is not provided on the initial recognition of goodwill, or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided they are enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognized to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilized against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax liabilities are always provided for in full.

Deferred tax assets and liabilities are offset only when the Company has a right and intention to set off current tax assets and liabilities from the same taxation authority.

Changes in deferred tax assets or liabilities are recognized as deferred income tax in profit or loss, except where they relate to items that are recognized directly in equity, in which case the related deferred tax is also recognized in equity.

Under the provisions of tax legislation relating to flow-through shares, the Company is required to renounce its right to tax deductions for expenses related to exploration activities to the benefit of the investors. When the Company has renounced to its tax deductions and has incurred its admissible expenditures, the sale of tax deductions is recognized in profit or loss as a reduction to deferred tax expense and a deferred tax liability is recognized for the taxable temporary difference that arises from the difference between the carrying amount of admissible expenditures capitalized as an asset and its tax base.

# 4.14 Share capital:

Share capital represents the amount received on the issue of shares, less issuance costs, net of any underlying income tax benefit from these issuance costs.

If shares are issued following the exercise of share options, or warrants, this account also includes the charge previously accounted to the warrants and share options accounts. Furthermore, if shares are issued following the acquisition of mining property or other non-financial assets, shares are valued at fair value of mining property on the day the agreement was concluded.

# 4.15 Unit placements:

The funds from unit placement are allocated between shares and warrants using the relative fair value method. The fair value of the common shares is recognized in equity based on the share price at the date of issue. The fair value of the warrants is determined using the Black-Scholes valuation model and is recorded separately under "warrants".

#### 4.16 Flow-through placements:

Issuance of flow-through shares represents in substance an issue of ordinary shares and the sale of the right to tax deductions to the investors. When the flow-through shares are issued, the sale of the right to tax deductions is deferred and presented as other liabilities related of flow-through financings in the statement of financial position. The proceeds received from flow-through placements are allocated between share capital and other liabilities related of flow-through financings using the residual method. Proceeds are first allocated to shares according to the quoted price of shares at the time of issuance and the residual proceeds, if any, are allocated to other liabilities. The liability component recorded initially on the issuance of shares is reversed on renouncement of the right to tax deductions to the investors and when eligible expenses are incurred and recognized in profit or loss in reduction of deferred income tax expense.

# Notes to Financial Statements (continued)

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 4. Significant accounting policies (continued):

# 4.16 Flow-through placements (continued):

The proceeds received from flow-through units are allocated between share capital, warrants and the liability using the residual method. Proceeds are first allocated to shares according to the quoted price of existing shares at the time of issuance and the residual proceeds are allocated to warrants and to the liability, allocating a first amount to warrant measured at fair value using Black-Scholes model.

# 4.17 Other elements of equity:

Warrants and share options accounts include unrealized charges related to share options and warrants until they are exercised, if applicable.

Deficit includes all current and prior year retained losses.

#### 4.18 Equity-settled share-based compensation:

The Company has an equity-settled share-based compensation plan for its eligible directors, employees and consultants. The Company's plan is not cash-settled.

All goods and services received in exchange for the grant of any share-based compensations are measured at their fair values, unless that fair value cannot be estimated reliably. If the Company cannot estimate reliably the fair value of the goods or services received, it must measure their value indirectly by reference to the fair value of the equity instruments granted.

For transactions with employees and with parties providing similar services, the Company evaluates the fair value of services received by reference to the fair value of equity instruments granted.

All equity-settled share-based compensation (except warrants to brokers) are ultimately recognized as an expense in the profit or loss with a corresponding credit to the Share options account. Equity-settled share-based compensation to brokers, in respect of an equity financing are recognized as issuance cost of the equity instruments with a corresponding credit to warrants, in equity.

If vesting periods or other vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognized in the current period. No adjustment is made to any expense recognized in prior period if share options ultimately exercised are different to that estimated on vesting.

# 4.19 Segment reporting:

The Company presents and discloses segment information based on information that is regularly reviewed by the chief operating decision-maker, i.e. the President and the Board of Directors.

The Company has only one operating segment which consist in the mining activities. All non-current assets are in Canada.

# 4.20 New standards and interpretations that have not yet been adopted:

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been published by the International Accounting Standards Board (IASB) but are not yet effective, and have not been adopted early by the Company.

Management anticipates that all of the pronouncements will be adopted in the Company's accounting policy for the first period beginning after the effective date of pronouncement. New standards and interpretations are not expected to have an impact on the Company's financial statements.

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 5. Asset Transfer Agreement:

On October 5, 2018, Cerro de Pasco Resources Inc. ("Cerro de Pasco") (formerly Genius Properties Ltd. ("Genius Properties")) completed the Asset Transfer Agreement pursuant to which Cerro de Pasco transferred the ownership of all mining rights and titles, a part of its trade accounts payable and other liabilities and the other liability related to flow-through shares. In consideration for such transfer, Genius Metals issued to Cerro de Pasco 9,797,790 Genius Metals common shares for a consideration of \$2,018,342 and 2,212,097 adjustment warrants to shareholders of Genius Properties of \$69,902. The transfer was recorded at the carrying amount of the assets and liabilities transferred.

	July 31
	2019

# Funds reserved for exploration and evaluation expenditures

As part of the Asset Transfer Agreement of October 5, 2018, the Company has until December 31, 2018 to incur eligible exploration and evaluation expenditures in order to comply with the requirements of a flow-through private placement of \$212,500 concluded in December 2017 by Genius Properties. As at December 31, 2018, the Company fulfilled its obligation by incurring \$148,901 (\$63,599 by Genius Properties as at October 5, 2018) in exploration expenditures and consequently the liability related to flow-through shares has been reversed through profit or loss in income tax recovery.

On October 5, 2018, the Company completed a flow-through private placement of \$296,950. The Company has until December 31, 2019 to incur eligible exploration and evaluation expenditures in order to comply with the requirements of flow-through private placement. As at July 31, 2019, the Company has the obligation to incur an amount of \$104,454 in exploration and evaluation expenditures until December 31, 2019.

On December 21, 2018, the Company completed a flow-through private placement of \$111,025. The Company has until December 31, 2019 to incur eligible exploration and evaluation expenditures in order to comply with the requirements of flow-through private placement. As at July 31, 2019, the Company has the obligation to incur an amount of \$111,025 in exploration and evaluation expenditures until December 31, 2019.

There is no guarantee that the Company's exploration and evaluation expenditures will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities could have a negative tax impact for investors.

<sup>(1)</sup> See Note 5.

# Sakami Property (Gold):

The Property is located in the James Bay area of the Province of Québec. The property straddles the contact between Opinaca and La Grande geological sub-provinces over a distance of 35 km. The property is subject to a 2.0% NSR on production, of which half (1/2) may be purchased at any time by the Company for \$1,000,000. The gold property comprises 148 mining claims. During the year ended July 31, 2019, the Company abandoned 29 claims and therefore wrote down the cost of those claims (\$160,109 in mining properties and \$65,723 in exploration and evaluation assets).

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 9. Mining properties (continued):

#### Iserhoff Property (Gold):

On November 13, 2018, the Company acquired a 100% interest in Iserhoff Property from an independent prospector (former consultant) by issuing on November 23, 2018, 500,000 common shares at a price of \$0.24 per share for a consideration of \$120,000. The Property is subject to a 2% net smelter returns royalty (NSR) on production, of which 1% may be purchased at any time by the Company for \$1,000,000 at any time. The Iserhoff Property is located in the northern Abitibi Greenstone belt, Québec in the central and western areas of Bergères Township, about 55 km NNE of Lebel-sur-Quévillion, Québec. The gold property comprises 51 mining claims totaling 28.5 km² which will be 100% owned by Genius Metals. The property can be accessed by a network of forestry roads some of which join provincial highway 113 connecting Lebel-sur-Quévillion with Chibougamau.

#### Meaghers (Gold):

The Meaghers property is located in South-Central Nova Scotia within the Halifax County, 39 km NE from the Halifax-Dartmouth conglomeration. The property consists of a continuous block of seven licenses, 100% owned by the Company, comprising 100 claims. Access from Halifax-Dartmouth urban center to the western end of the property is by a paved road system, whereas several secondary roads crisscross the entire Meaghers property. During the year ended July 31, 2019, the Company abandoned 42 claims and wrote down a part of the cost of the Meaghers property (\$1,067 in mining properties and \$5,099 in exploration and evaluation assets).

#### Nova Scotia properties (Gold):

Nova Scotia properties consisted of the following properties: Blockhouse Gold (35 claims), Kemptville NS (10 claims), Chocolate Lake NS (6 claims), and Gold River NS (1 claim). The properties are subject to a 1.5% NSR of which two-thirds (2/3) may be purchased at any time by the Company for \$1,000,000. During the year ended July 31, 2019, the Company abandoned 14 claims and wrote down a part of the cost of the Blockhouse Gold property (\$9,593 in mining properties and \$20,255 in exploration and evaluation assets).

# Nictaux Property (Gold) Option:

On November 14, 2018 the Company has signed a letter of intent the ("Letter of Intent") to acquire the interest of Atlantic Vanadium Corporation ("Atlantic") in the Nictaux Property, located in Nova Scotia. The Company agrees to pay an amount of \$10,000 which will entitle Genius Metals to have access, as soon as they will become available, to reports and presentations on the Property. In addition, Genius Metals agrees to pay an additional amount of \$20,000 to Atlantic on or prior to December 31st, 2019.

Thereafter, subject to the complete due diligence review of the Property, Genius Metals could acquire a 100% interest in the property for the following considerations:

- (i) exploration expenditures of \$500,000 on or prior to December 31, 2021;
- (ii) annual cash payments equal to 10% of the amount spent in exploration expenditures for that year, subject to a maximum of \$50,000; and
- (iii) Pay a 3% NSR, with a buy-down before December 31, 2023 of \$500,000 for the first 1%, and \$1 million for the second 1%.

# Robelin Property (Polymetallic):

The Robelin Property is located 85 km East South East from the town of Kuujjuaq in the Province of Québec. The property is subject to a 2.0% NSR on production, of which half (1/2) may be purchased at any time by the Company for \$1,000,000. During the year ended July 31, 2019, the Company wrote down to \$Nil the cost of the Robelin property, as they no longer fit the Company's development strategy (\$916,025 in mining properties and \$21,859 in exploration and evaluation assets).

# A-Lake Property (Copper-Tin-Zinc):

On November 14, 2018 the Company has signed a letter of intent the ("Letter of Intent") to acquire the interest of Atlantic Vanadium Corporation ("Atlantic") in the A-Lake Property, located in Nova Scotia. The Company agrees to pay an amount of \$10,000 which will entitle Genius Metals to have access, as soon as they will become available, to reports and presentations on the Property.

On January 21, 2019 the Company has entered into an option agreement (the "Agreement") with Atlantic Vanadium Corporation ("AVC") to acquire 100% of the A-Lake (Cu-Sn-Zn) Property in New-Brunswick. The A-Lake property is located in southern New Brunswick within the Charlotte County, NTS map 21G07. It consists of six units (8866, 8840, 8864, 8896, 8897 and 8900) containing 118 claims. The Property is subject to a 2.5% net smelter returns royalty (NSR) on production, of which 1.5% may be purchased at any time by the Company for \$3,000,000, at any time on or prior to December 31, 2021.

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 9. Mining properties (continued):

# A-Lake Property (Copper-Tin-Zinc) (continued):

To earn its 100% interest, the Company must make cash payments and incurred exploration expenses in the following timelines:

	Cash payments	Exploration expenses (
	\$	\$
On January 21, 2019	20,000 (2)	-
On July 4, 2019	10,000	-
On or before April 15, 2020	<u>-</u>	100,000
On or before May 31, 2020	25,000	-
On or before April 15, 2021	<u>-</u>	250,000
On or before May 31, 2021	35,000	-
On or before April 15, 2022	<u>-</u>	350,000
	90,000	700,000

<sup>(1)</sup> Any excess work incurred in any year may be carried forward and applied against the subsequent year's exploration expenses commitments.

# Dissimieux Lake (Phosphate):

The property consists of 15 claims covering 8.4 km2, and is accessible via Provincial Highway #138 from Forestville, then driving northward on Highway #385 to Labrieville, and from there using a network of secondary gravel forestry roads to reach the east-southeast shore of Dissimieux Lake. The Property hosts titanium-phosphate (ilmenite-apatite) mineralization located near the southern margin of the La Blache Anorthositic Complex (the "LBAC"). The LBAC is elongated in a northeast-southwest direction and is 15 to 25 km wide over 60 km. It was emplaced into a highly metamorphosed and folded package of steeply dipping, N-NE dipping paragneiss and amphibolites of the Grenville Geological Province. The Property is dominated by steep hills, with elevations ranging from 435 m to 700 m above sea level.

#### KM381 (Lithium):

The KM381 project consists of 21 mining claims. Easy access, 55km NNE of Lebel-sur-Quévillon, The project is in and less than two Km East of James Bay Lithium deposit.

# Mt Cameron Property (Graphite):

On November 13, 2018 the Company amended its option agreement with Mt Cameron Minerals Incorporated. The Company has to incur exploration expenditures as follows: \$500,000 on or before December 31, 2019 and \$500,000 on or before December 31, 2020 instead of \$500,000 on or before December 31, 2018 and \$500,000 on or before December 31, 2019. In consideration for the postponement of the deadlines of one year to incur the exploration expenditures, the Company will issue 100,000 common shares to shareholders of Mt Cameron Minerals Inc. The Property is located 25 kilometers west of Sydney, Nova Scotia and is comprised of 7 licenses (82 claims over 13.3 km2). The property is easily accessible by paved roads and in close proximity of powerlines. With the potential construction of NOVAPORT, a deep-water mega-terminal in Sydney, trans-Atlantic shipping would be readily available. Sydney has a highly skilled workforce, having an extensive history in steel manufacturing and coal mining.

<sup>(2)</sup> These cash payments were made on the dates noted in the agreement.

#### 2019:

On October 5, 2018, pursuant to the Asset Transfer Agreement as described in Note 5, the Company issued 9,797,790 common shares valued at \$0.206<sup>(1)</sup> per share for an aggregate consideration of \$2,018,342 to acquire the ownership of all mining rights and titles, a part of the trade accounts payable and other liabilities and the other liability related to flow-through shares from Genius Properties.

On October 5, 2018, the Company concluded a private placement by issuing 2,486,667 units at a price of \$0.25 per unit for net proceeds of \$606,964 after deducting share issuance costs of \$14,703. A commission of \$10,250 was paid in connection with this private placement. Each unit consists of one common share and one warrant for a total of 2,486,667 common shares and 2,486,667 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.35 until October 5, 2019. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$82,703 based on the Black-Scholes option pricing model using the assumptions described below (Note 12 (c)).

#### 12. Share capital and warrants (continued):

# (b) Issued and outstanding (continued):

#### 2019 (continued):

On October 5, 2018, the Company concluded a second private placement by issuing 848,429 flow-through units at a price of \$0.35 per unit for net proceeds of \$274,127 after deducting share issuance costs of \$22,823. A commission of \$14,885 was paid in connection with this private placement. Each unit consists of one flow-through share and one-half warrant for a total of 848,429 flow-through shares and 424,214 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.45 until October 5, 2019. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$13,957 based on the Black-Scholes option pricing model using the assumptions described below (Note 12 (c)). An amount of \$113,554 representing the premium paid by the investors was recorded in liability related to flow-through shares based on the residual value method. As at July 31, 2019, the Company has the obligation to incur \$104,454 in exploration expenditures in its Québec mining properties no later than December 31, 2019.

On October 5, 2018, the Company issued 168,000 common shares at a fair value of \$0.206<sup>(1)</sup> per share for a total value of \$34,607 in settlement of accounts payable in the amount of \$42,000. No commission was paid in connection with this transaction. These settlements resulted in a gain of \$7,393 on settlement of accounts payable, in comprehensive loss.

On November 5, 2018, the Company issued 300,000 common shares at a fair value of \$0..235 per share for a total value of \$70,500 in settlement of trade accounts payable and other liabilities in the amount of \$86,440. No commission was paid in connection with this transaction. These settlements resulted in a gain of \$15,940 on settlement of accounts payable, in comprehensive loss. The Company incurred an amount of \$25,776 in legal fees as part of this settlement.

On November 13, 2018, the Company has entered into an option agreement to acquire a 100% interest in 29 mining claims of the Iserhoff Property, located in Québec, by issuing on November 23, 2018, 500,000 common shares at a fair value of \$0.24 per share for a total value of \$120,000 (Note 9).

On December 14, 2018, the Company concluded a private placement by issuing 600,000 units at a price of \$0.25 per unit for net proceeds of \$144,000 after deducting share issuance costs of \$6,000. There was no commission paid in connection with this private placement. Each unit consists of one common share and one warrant for a total of 600,000 common shares and 600,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.35 until December 14, 2019. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$19,549 based on the Black-Scholes option pricing model using the assumptions described below (Note 12 (c)).

On December 21, 2018, the Company concluded a private placement by issuing 64,000 units at a price of \$0.25 per unit for net proceeds of \$16,000 after deducting share issuance costs of \$Nil. There was no commission paid in connection with this private placement. Each unit consists of one common share and one warrant for a total of 64,000 common shares and 64,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.35 until December 21, 2019. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$1,698 based on the Black-Scholes option pricing model using the assumptions described below (Note 12 (c)).

On December 21, 2018, the Company concluded a second private placement by issuing 317,214 flow-through units at a price of \$0.35 per unit for net proceeds of \$111,025 after deducting share issuance costs of \$Nil. There was no commission paid in connection with this private placement. Each unit consists of one flow-through share and one-half warrant for a total of 317,214 flow-through shares and 158,605 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.45 until December 21, 2019. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$3,972 based on the Black-Scholes option pricing model using the assumptions described below (Note 12 (c)). An amount of \$55,098 representing the premium paid by the investors was recorded in liability related to flow-through shares based on the residual value method. As at July 31, 2019, the Company has the obligation to incur \$111,025 in exploration expenditures in its Québec mining properties no later than December 31, 2019.

On January 11, 2019, the Company issued 100,000 common shares at a fair value of \$0.19 per share for a consideration of \$19,000 to shareholders of Mt Cameron Minerals Inc. as per the amendment of November 13, 2018 for the postponement of the deadlines of one year to incur the exploration expenditures.

On April 1, 2019, the Company issued to service providers 250,000 common shares valued at \$45,000 for business development consultancy.

(1) Based on the fair value of the share estimated at the date of the Asset Transfer Agreement (See Note 5).

- (1) Based on the fair value of the share estimated at the date of the Asset Transfer Agreement (See Note 5).
- (2) The volatility was determined in comparison with the volatility of comparable publicly traded companies.

#### 13. Share-based compensation:

# (a) Share option plan:

The Company has a share option plan "The Plan" whereby the Board of Directors, may grant to directors, officers or consultants of the Company, options to acquire common shares. The Board of Directors has the authority to determine the terms and conditions of the grant of options. The Board of Directors approved a 'share option plan reserving a maximum of 1,500,000 share options of the Company, with a vesting period allowed of zero to a period fixed by the Board of Directors, when the grant of option is made at market price, for the benefit of its directors, officers, employees and consultants. The Plan provides that no single person may hold options representing more than 5% of the outstanding common shares.

The exercise price of any option granted under The Plan is fixed by the Board of Directors at the time of the grant and cannot be less than the market price per common share the day before the grant. The term of an option will not exceed ten years from the date of grant. Options are not transferable and can be exercised while the beneficiary remains a director, an officer, an employee or consultant of the Company.

Each share option entitles the holder to acquire one common share. The fair value of the options was estimated at \$0.14 per share option at the grant date for a total of \$13,890 using the Black-Scholes option pricing model. The assumptions used for the calculation were:

Expected dividend yield	0.0%
Share price at grant date	\$0.19
Expected volatility (1)	104.10%
Risk-free interest rate	1.57%
Expected life	5.0 years

<sup>(1)</sup> The volatility was determined in comparison with the volatility of comparable publicly traded companies.

# 14. Finance expenses:

Finance expenses recognized in the net loss of the periods is as follows:

	Year	Initial 68-days
	ended	period ended
	July 31	July 31
	2019	2018
	\$	\$
Fines, penalties, bank charges & other interest	1,474	-
Finance expense	1,474	

#### 15. Income taxes:

# (a) Relationship between expected tax expense and accounting profit or loss:

The effective income tax rate of the Company differs from the combined federal and provincial income tax rate in Canada. This difference results from the following items:

	July 31	July 31
	2019	2018
	\$	\$
Loss before income taxes	(2,146,566)	-
Expected tax expense calculated using the combined federal and provincial income tax rate in Canada	26.60%	26.70%
Expected income tax recovery	(570,987)	-
Changes in unrecorded temporary differences	427,119	-
Tax effect on flow-through shares	90,812	-
Reversal of other liability related to flow-through shares	(103,387)	-
Share-based compensation	50,351	-
Change in deferred income tax rate	1,954	
Other non-deductible expenses	751	-
Deferred income tax expense (recovery)	(103,387)	-

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 15. Income taxes (continued):

# (b) Composition of deferred income taxes expense (recovery) in the statement of comprehensive loss:

	July 31 2019	July 31 2018
	\$	\$
Inception and reversal of temporary differences	(519,885)	-
Changes in unrecorded temporary differences	427,119	
Tax effect on flow-through shares	90,812	
Reversal of other liability related to flow-through shares	(103,387)	-
Change in deferred income tax rate	1,954	-
Deferred income tax expense (recovery)	(103,387)	-

# (c) Unrecognized deductible temporary differences:

Unrecognized deductible differences for which the Company has not recognized a deferred tax asset are presented in the following tables. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize benefits therefrom.

		July 31 2019		July 31 2018
	Federal	Québec	Federal	Québec
				\$
Property and equipment	147,034	147,034	-	-
Mining properties	1,086,794	1,086,794	-	-
Share issuance costs	34,821	34,821	-	-
Non-capital losses carryforwards	274,513	271,685	-	-
	1,543,162	1,540,334	-	-

The ability to realize the tax benefits is dependent upon a number of factors, including the future profitability of operations. Deferred tax assets are recognized only to the extent that it is probable that sufficient taxable profits will be available to allow the asset to be recovered. Accordingly, deferred tax assets have not been recognized, these deferred tax assets not recognized equal an amount of \$408,613.

# (d) Non-capital losses:

The Company has the following non-capital losses which are available to reduce income taxes in future years and on which no deferred tax asset was recognized. They expire as follow:

	Federal	Québec
	\$	\$
2039	274,513	271,685
	274,513	271,685

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 16. Supplemental cash flow information:

The Company entered into the following transactions which had no impact on the cash flows:

	Year	Initial 68-days
	ended	period ended
	July 31	July 31
	2019	2018
	\$	\$
Non-cash financing activities:		
Shares issued in settlement of trade accounts payables	105,108	-
Shares issued as payment of expenses	45,000	-
Share issuance costs in trade accounts payable and accrued liabilities	1,818	=
Non-cash investing activities:		
Shares issued for the acquisition of the net asset of Genius Properties Ltd.	2,018,342	-
Shares issued for the acquisition of mining properties	139,000	-
Mining properties acquired through the Asset Transfer Agreement	2,277,044	-
Exploration and evaluation assets acquired through the Asset Transfer Agreement	259,854	-
Mining properties in trade accounts payable and accrued liabilities	8,776	-
Exploration and evaluation assets in trade accounts payable and accrued liabilities	37,118	-

# 17. Related party transactions:

Related parties include the Company's joint key management personnel. Unless otherwise stated, balances are usually settled in cash. Key management includes directors and senior executives. The remuneration of key management personnel includes the following expenses:

	Year	Initial 68-days
	ended	period ended
	July 31	July 31
	2019	2018
	\$	\$
Management and consulting fees	95,000	-
Salaries and director's fees	80,267	-
Share-based compensation	136,805	-
	312,072	-

In addition to the related party transactions presented elsewhere in these financial statements, the following is a summary of other transactions:

On November 12, 2018, the Company appointed a new director which is a partner in a law firm that offers legal services to Genius Metals. For the year ended July 31, 2019, an amount of \$27,175 of legal fees and transaction costs were charged by the law firm As at July 31, 2019, trade accounts payable and other liabilities include an amount of \$63,654 (\$Nil as at July 31, 2018) due to this related party (See Note 11).

These transactions, entered into the normal course of operations, are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Unless otherwise stated, none of the transactions incorporated special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

# **Notes to Financial Statements (continued)**

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

#### 18. Financial assets and liabilities:

The carrying amount and fair value of financial instruments presented in the statements of financial position related to the following classes of assets and liabilities:

	July 31 2019		July 31 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
	\$	\$	\$	\$
Financial assets				
Amortized cost				
Cash and cash equivalents	127,109	127,109	-	-
Other receivables (excluding sales tax receivable)	-	-	10	10
	127,109	127,109	10	10
Financial liabilities				
Amortized cost				
Trade accounts payable and accrued liabilities	321,948	321,948	-	-
	321,948	321,948	-	-

The fair value of cash and cash equivalents, other receivables and trade accounts payable and accrued liabilities is comparable to its carrying amount given the short period to maturity, i.e. the time value of money is not significant.

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (that is, derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

#### 19. Capital management policies and procedures:

The Company considers the items included in equity as capital components.

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern;
- · to increase the value of the assets of the business; and
- to provide an adequate return to shareholders of the Company.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flow, either with partners or by the Company's own means.

The Company monitors capital on the basis of the carrying amount of equity. Capital for the reporting periods are presented in the statement of changes in equity.

The Company is not exposed to any externally imposed capital requirements except when the Company issues flow-through shares for which the amount should be used for exploration work. As at July 31, 2019, the Company has the obligation to incur \$215,479 in exploration expenditures no later than December 31, 2019 in order to comply with the requirements of flow-through private placement concluded in October and December 2018 (see Note 6).

Years ended July 31, 2019 and the initial 68-days period ended July 31, 2018 (in Canadian dollars)

# 19. Capital management policies and procedures (continued):

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its exploration and evaluation activities or may slow its activities until conditions improve. No changes were made in the objectives, policies and processes for managing capital during the reporting periods.

	July 31	July 31
	2019	2018
	\$	\$
Equity	1,506,928	10
	1,506,928	10

#### 20. Financial instrument risks:

The Company is exposed to various risks in relation to financial instruments. The main types of risks the Company is exposed to are credit risk and liquidity risk.

The Company manages risks in close cooperation with the board of directors. The Company focuses on actively securing short-term to medium-term cash flows by minimizing the exposure to financial markets.

# (a) Credit risk:

Credit risk is the risk that the other party to a financial instrument fails to honour one of its obligations and, therefore, causes the Company to incur a financial loss.

The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets at the reporting date.

The Company's management considers that all of the above financial assets that are not impaired or past due for each of the reporting dates are of good credit quality.

Credit risk of cash and cash equivalents is considered negligible, since the counterparty which holds the cash and cash equivalents is a reputable bank with excellent external credit rating.

None of the Company's financial assets are secured by collateral or other credit enhancements.

# (b) Liquidity risk:

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount.

During the year ended July 31, 2019, the Company has financed its acquisitions of mining rights, exploration and evaluation assets and working capital needs through private financings consisting of issuance of common shares and flow-through shares. Management estimates that the cash and cash equivalents as at July 31, 2019 will not be sufficient to meet the Company's needs for cash during the coming year (see Note 2).

Contractual maturities of financial liabilities are as follows:

				July 31
				2019
	Less than		More than	\$
	1 year	1-5 years	5 years	Total
	\$	\$	\$	\$
Trade accounts payable and accrued liabilities	321,948	-	-	321,948

# **Notes to Financial Statements (continued)**

# 20. Financial instrument risks (continued):

# (b) Liquidity risk (continued):

				July 31
				2018
	Less than		More than	\$
	1 year	1-5 years	5 years	Total
•	\$	\$	\$	\$
Trade accounts payable and accrued liabilities	-	-	-	-

# 21. Subsequent events:

On November 22, 2019, the Company issued 718,736 common shares at a fair value of \$0.20 per share for a total value of \$143,747 in settlement of accounts payable in the amount of \$179,684.

On November 22, 2019, the Company concluded a private placement by issuing 1,150,000 flow-through units at a price of \$0.25 per flow-through unit for proceeds of \$287,500. Each flow-through unit consists of one flow-through common share and one-half warrant for a total of 1,150,000 common shares and 625,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.30 until May 22, 2021. In Addition, the Company issued 1,365,000 units at a price of \$0.20 per unit for proceeds of \$273,000. Each unit consists of one common share and one warrant for a total of 1,365,000 common shares and 1,365,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.30 until May 22, 2021.
